

TECHNICAL DATA SHEET

PROTECT BARRIER CREAM

Protective cream to be applied before work, designed to protect the skin against aggressive agents commonly encountered in professional environments.

Forms a protective film on the hands, providing invisible, non-sticky, non-staining, and non-greasy protection that shields the skin from organic solvents, solvent-based paints, printing inks, oils, degreasers, greases, grime, fuels, cement, tar, bitumen, soot, pigments, polyurethane foams, sealing materials, and more.

Product dermatologically approved and registered with the CPNP (Cosmetic Product Notification Portal). Dermatologically tested and approved.

Advantages:

- Silicone-free
- Dries quickly
- Facilitates skin cleansing
- Suitable for sensitive skin

Technical specifications:

pH	Neutral (6)
Color	White
Odour	Floral

Instructions for use:

Apply the cream to dry hands before starting work and rub until fully absorbed. After work, wash your hands with Hand Cleaner.
