

INDUSTRIAL GEAR OIL CLP 320

Product Description:

INDUSTRIAL GEAR OIL CLP 320 is a high performance extreme pressure gear oils developed for lubrication of heavy duty industrial gears working under severe operating conditions.

INDUSTRIAL GEAR OIL CLP 320 is based on high quality mineral base oil in combination with an unique zinc-free additive package to ensure the following properties:

- Excellent load carrying capability protects gears against scuffing and wear and offers long equipment life and reduced maintenance costs.
- High thermo-oxidative stability helps resist deposit formation, provides enhanced system cleanliness and enables longer service intervals.
- Provides effective rust and corrosion protection to all gearbox components.
- Excellent demulsibility property enables trouble-free operation in conditions encountering water/ moisture.

INDUSTRIAL GEAR OIL CLP 320 exceeds the following performance criteria:

DIN 51517-3 CLP	AGMA 9005-F16	ISO 12925-1 CKD
David Brown S1.53.101	AGMA 9005 E-02	JIS K 2219:2006 class 2
