DIESEL SYSTEM TREATMENT

Wynn's Diesel System Treatment is an additive, which improves the diesel fuel quality and combustion.

Properties

- ✓ Cleans pump and injectors.
- ✓ Increases the cetane number and improves the ignition quality and combustion.
- ✓ Reduces soot particulates and black exhaust smoke.
- ✓ Prevents fouling of the fuel filter.
- ✓ Compensates for lack of lubricity in low sulphur fuels.
- ✓ Reduces diesel knocking noises.
- ✓ Protects the fuel system against rust and corrosion.

Applications

- ✓ For all diesel engines with or without turbocharger.

Directions

- ✓ Normal treatment
 - 1 to 2 litres of product per 1.000 litres of diesel fuel.
- ✓ Curative treatment (in case of excessive exhaust smoke or dirty injection system)
 - 1 litre of product per 200 litres of diesel fuel. After initial treatment, revert to normal dosage.
